NEST Pension scheme

To help people save more for their retirement, all employers are now required by law to provide a workplace pension scheme for certain staff and pay money into it.

You therefore will be automatically enrolled into our pension scheme if you meet all of the following criteria:

- You earn over £192 a week (or £833 a month)
- You are aged 22 or over and
- You are under state pension age.

You can opt out of the pension scheme if you want to, but if you stay in you will have your own personal pension when you retire. Your pension will belong to you, even if you leave us in the future.

Both you and the company will pay contributions into it every pay period, and the government will also contribute through tax relief.

The information overleaf will tell you everything you need to know about automatic enrolment. You will also receive a starter pack of information from the pension scheme.

If you do not qualify to be automatically enrolled

You can still request to join the pension scheme

If you do join, each month you will put money into the pension directly from your pay and the government will also contribute through tax relief. This will be as per the government guidelines

The company is not obliged to contribute to the scheme as well if you earn less than

- £520 a month
- £120 a week
- £480 over 4 weeks

If you want to join the pension scheme, tell us in writing by sending a letter which has to be signed by you to HR@cleangloucestershire.com, please include the phrase, 'I confirm I personally submitted this notice to join a workplace pension scheme.'

In the future if you earn more than £192 a week (or £833 a month) or turn 22, and you have not joined the scheme, we will automatically enrol you and tell you we have done this.

Mobile: 07923639015

Signing receipt of this document confirms you are in agreement to be automatically enrolled onto the pension scheme and you understand your right and the procedure to opt in or opt out of the scheme.

Your workplace pension questions answered

Why have I been automatically enrolled?

- All employers now have to put their workers into a pension scheme if they earn over £10,000 a year, are aged 22 or over and are under state pension age. This is the law, because the government wants to get more people to have another income in addition to the state pension when they retire.

What if I don't want to join the scheme?

- If you don't want to join the scheme, you need to 'opt out'. You can opt out in the one month period starting on the date you were put into the pension scheme, whichever is the latest. You can opt out by completing the form available from our pension provider, and following their instructions.
- You will need to sign the form, or if you send it electronically it will need to include confirmation that you are submitting it personally.
- The pension provider will also be able to tell you when the one month opt-out period started, if you aren't sure.
- If you opt out during this period any contributions to your pension you have already made will be refunded and you will not have become a member of the scheme on this occasion.
- If you want to stop making contributions after the end of this one month period you can. The contributions you have made already may be refunded but this will depend on the pension scheme we are using and how long you have been contributing.

What if I opt out of the scheme but then change my mind in the future?

- You can ask to rejoin the scheme by contacting us in writing by sending a letter which has to be signed by you. Or if you send it electronically, it has to contain the phrase, 'I confirm I personally submitted this notice to join a workplace pension scheme.'
- You can only re-join once in any 12 month period.

If I opt out, what happens after that?

- Anyone who opts out or stops making contributions will be automatically enrolled back into a pension scheme at a later date (usually every three years if they meet certain criteria). This is because your circumstances may have changed and it may be the right time for you to start saving. We will contact you when this happens and you can opt out again if it's still not right for you.

If I want to stay in the scheme do I have to pay in?

- You will pay in 5% of your earnings each pay period. This will be taken directly from your pay and will include tax relief from the government. We will pay in 3% of your earnings each pay period. Therefore, the total contribution to your pension pot will be 8% of your earnings.

Will this amount change?

- As your contribution is a percentage of your pay, the amounts will automatically go up or down if your earnings do. Also, we will increase in line with the government's minimum standards.
